-- Candice Xia

- Sexual assault has long-term emotional consequences that can lead to suicide.

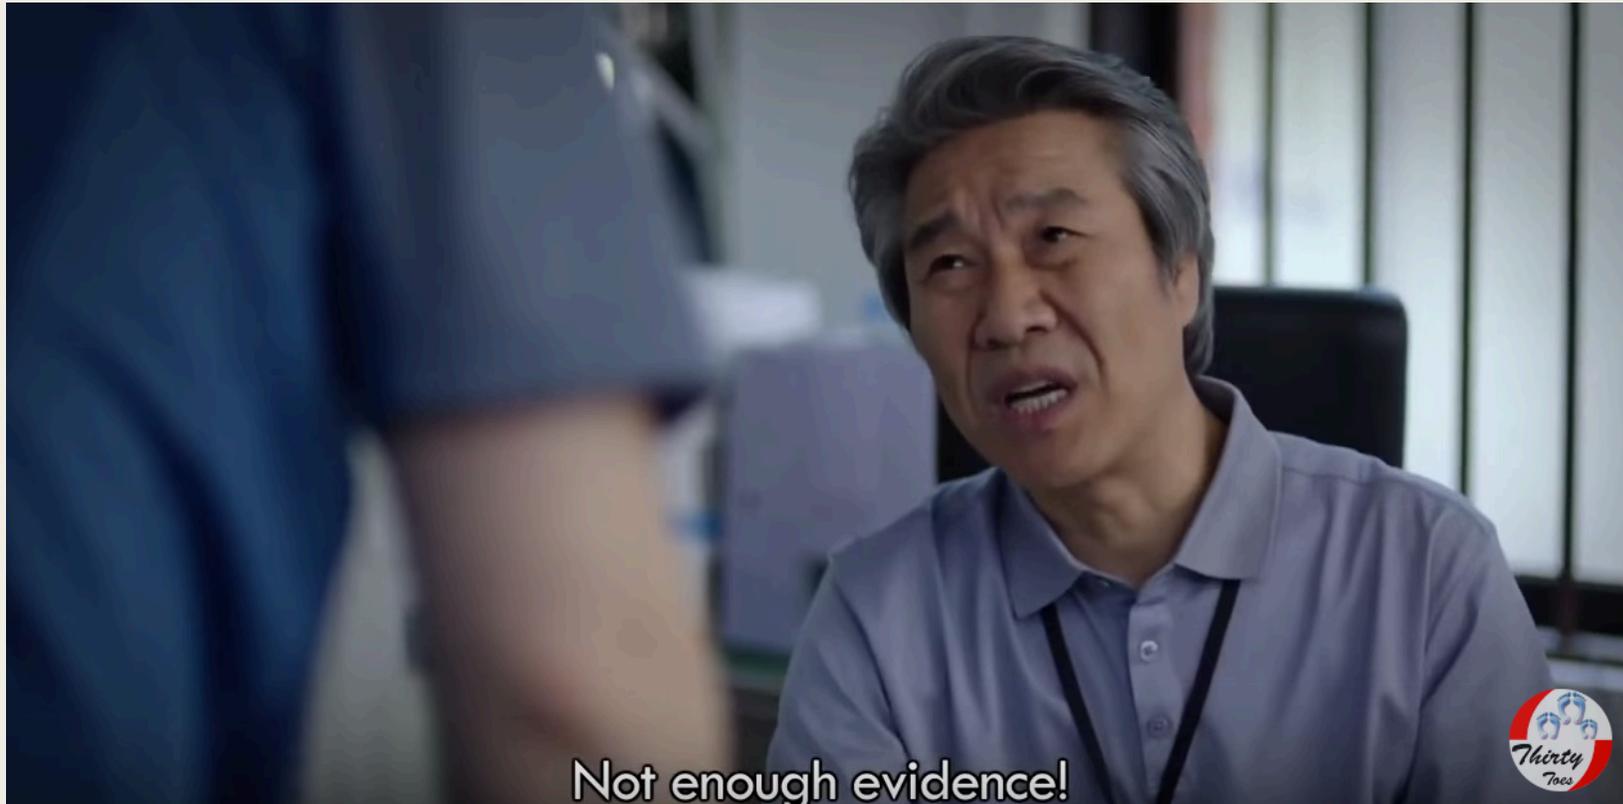

- About 33% of rape victims have suicidal thought.
- About 13% of rape victims will attempt suicide.

To avoid the second time mental abuse, we have better ways.

- A doll
- An agent is a doll is an effective way!

Purpose 1: to help the sexual assault victims cooperate with the police officers.

Purpose 2: heal the mental impairment and help them start a new life.

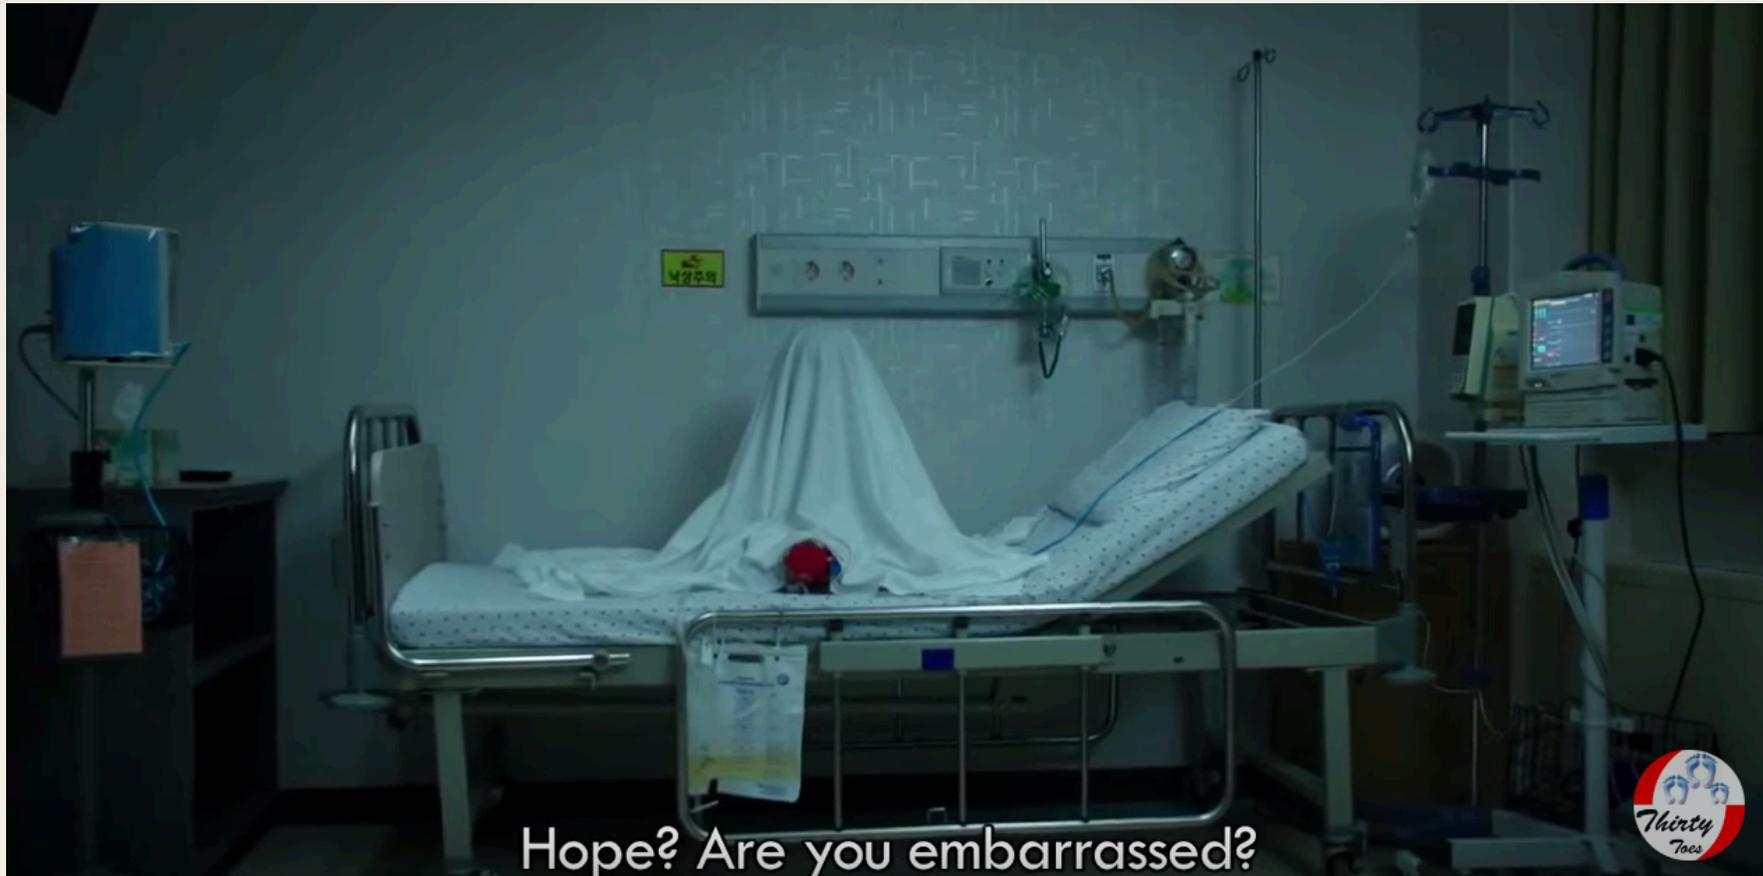

It's not the victims' mistake, but they still get hurt from us.

Have her questioned?
