

VISUALIZATION PROJECT

Rachel Cahall

METADATA VISUALIZATION

- Assigned scrapbook #10, years 1979–1981
- Not a lot of surprises, obvious occurrences like “Women, Feminist, FF, Fantastic”
- Probably too close to the keywords to see surprises
- Representation of my scrapbook was dominated by the Luna Sponges and Chemshield products, as well as film festivals and the Women in Film notecards
- Most of scrapbook was correspondence and order forms from the Fantastic Feminist, but a good portion was dedicated to We Care America and the Chemshield.

[illegible]

BLOG VISUALIZATION

- Not surprising since I wrote them
- I think the word cloud is an accurate representation of blog posts
- Quick way to see the main points of my project
- Tool difficulties with the stop words
- Finding things to blog about from my scrapbook wasn't hard for me
- Obvious words like women, health, sexual, planned parenthood, and menstrual were expected
- I wasn't aware I said Trump enough to show up on the cloud, thought I used sex more
