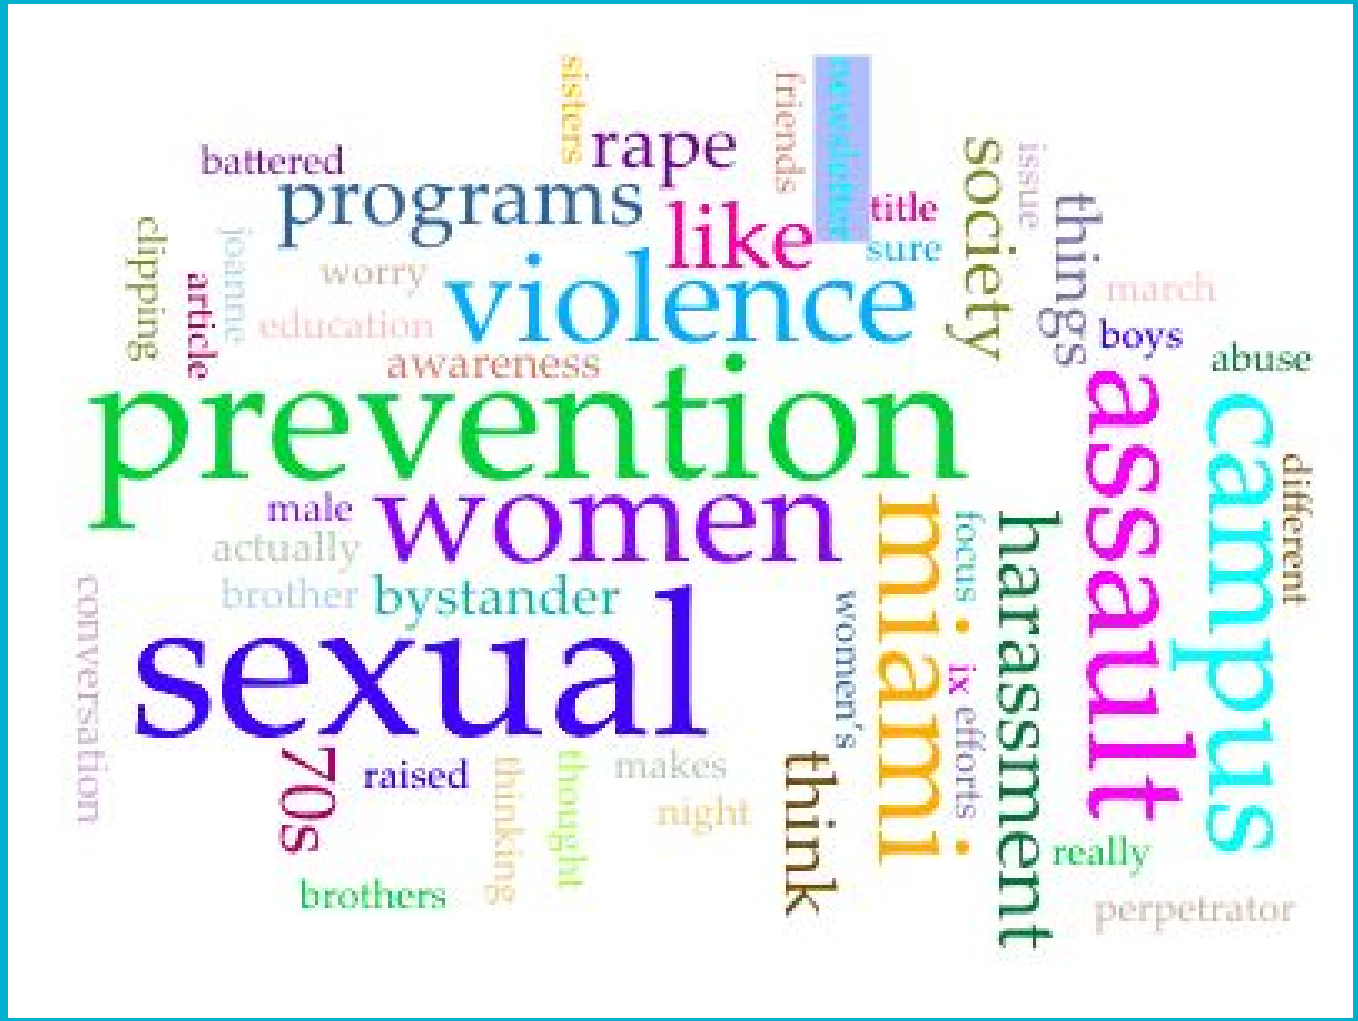
Blog Visualization

- Not surprising as my blogs had a very narrow theme with words that I mentioned a lot during each post
- Main points of my blog were the main words which I liked
- Sexual is biggest, prevention second biggest, and assault/women was third biggest-- makes sense but wish all were same size because that would show my point a bit better
- Liked all my little words- society, programs, rape, battered-- showed the associated points of my blog



sexual
prevention

Scrapbooking Metadata Analysis Visualization

- 1978 Scrapbook about Fantastic Feminist
- Not super surprising but some of the medium sized words surprised me--catalog??
- Liked FEMINIST and LIBERATION
- Products is big word because most of my scrapbook is about feminist products
